

New U.S. Application
PRELIMINARY AMENDMENT

Remarks

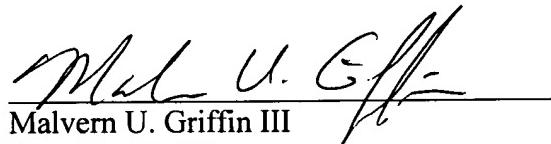

The claims have been amended to put the claims in a more preferred format for U.S. examination, to eliminate multiple dependencies, and to more clearly recite the claimed invention. In addition, the section entitled "Cross-Reference to Related Application" has been added, the heading "Field of the Invention" has been added, the heading "Brief Description of the Drawings" and the accompanying description of Figure 1 have been added, the List of Reference Numerals has been rewritten on page 6 of the Specification, and an "Abstract of the Invention" has been added. Applicants respectfully submit that no new matter has been added by the foregoing amendments.

Applicants hereby claim priority under 35 U.S.C. §119(a) and 35 U.S.C. §365(b) to Spanish Patent No. P200400421 issued February 20, 2004. The specification has been amended to include the priority application information.

Conclusion

It is not believed that extensions of time or fees for addition of claims are required, beyond those that may otherwise be provided for in documents accompanying this paper. However, in the event that additional extensions of time are necessary to allow consideration of this paper, such extensions are hereby petitioned under 37 CFR § 1.136(a), and any fee required therefore (including fees for net addition of claims) is hereby authorized to be charged to Deposit Account No. 19-5029.

Respectfully submitted,
